

Mouseclick Technologies

Pricing for SME

Hybrid* App based on existing website, single platform

CHF 2500 + design integration effort, CHF 350 per day

Hybrid App, cross platform

CHF 2500 per platform + design integration effort, CHF 350 per day

Native Applications

On request only

Native Cross Platform Applications

On request only

Example project (1)

Three pages company presentation, for iOS only (iPhone, iPad).

Design integration effort = 2 day.

Price = $2500 + 2 * 350 = 3200$ CHF

Example project (2)

Three pages company presentation, cross platform, for iOS, Android, and Windows Phone.

Design integration effort = 6 days.

Price = $3 * 2500 + 6 * 350 = 9600$ CHF

Integration effort will depend on the complexity of the page.

For more details please send a query to info@mouseclicktechnologies.com.

*Hybrid app is a native app built based on PhoneGap and Cordova framework, and therefore based on HTML 5.0 technologies. Hybrid app can benefit from HTML design practices. Production of Hybrid apps based on existing HTML designs provide significant development cost saving. However, certain tasks and features are only possible in a native application, or may require native extension to the hybrid frameworks.

**Included in price is two months post-release bug-fix guarantee for the app. Not included in price: hosting, graphic design, and other possible maintenance.

*** Prices are valid until July 15, 2013.
